PROFILE SUMMARY

Certified Oromo and Amharic interpreter with specialized training in medical, legal, and technical interpretation. Leveraging a Software Engineering degree and 8+ professional certifications (including HIPAA-compliant medical interpretation), I deliver accurate, culturally-sensitive language services with strict confidentiality.

PROFESSIONAL EXPERIENCE

Oromia Science and Technology Authority

Software Engineer | 2018 – 2025

- As a developer at OSTA, I honed my technical terminology and problem-solving skills while working on software localization projects. This unique background enhances my ability to interpret complex technical concepts between Oromo/Amharic and English with precision.

Nex Tec Software Technology

Bilingual Technology Liaison | 2022 – Present | part time

- Served as primary English-Oromo-Amharic communicator for international tech partnerships, negotiating software/hardware purchases with global vendors.
- Translated complex technical specifications, contracts, and proposals to bridge communication gaps between Ethiopian and foreign tech firms.
- Facilitated cross-cultural business meetings, ensuring precise terminology transfer in cloud computing, SaaS, and IT infrastructure discussions.

EDUCATION

BSc of Software Engineering

Haramaya University | 2014 – 2018

PROFESSIONAL CERTIFICATIONS

- **HIPAA-Compliance Course for Remote Interpreters** | 2025
- **Advanced Medical Terminology** | 2025
- **Call Center Customer Service** | 2025
- **How to become a remote interpreter** | 2025
- **Real Work Situations: Compliance Issues** | 2025
